Dear Dr. Henderson:

Thank you for providing me with the results of the Clean Air Scientific Advisory Committee Oxides of Nitrogen Primary National Ambient Air Quality Standards Review Panel's review of the document titled *Risk and Exposure Assessment to Support the Review of the NO<sub>2</sub> Primary National Ambient Air Quality Standard: First Draft*. The Panel's comments have been extremely helpful as the U.S. Environmental Protection Agency continues to refine its assessment of exposures and health risks associated with ambient NO<sub>2</sub>. The Agency's consideration of the Panel's comments will be reflected in future iterations of this risk and exposure assessment document.

I thank the Panel for its efforts, and I look forward to continuing to work with you on this and other important matters.

Sincerely,
