Granger Morgan, Ph.D.  
Science Advisory Board  
U.S. Environmental Protection Agency  
1200 Pennsylvania Avenue, N.W.  
Mail Code 1400 F  
Washington, D.C. 20460-0001

Dear Drs. Henderson and Morgan:

Thank you for your providing me with the results of the Science Advisory Board Risk and Technology Review Consultative Panel's review of the U.S. Environmental Protection Agency's proposed Risk and Technology Review Assessment Plan.

The Panel's comments will be very helpful as we move forward with the residual risk program and as we prepare for the formal SAB review of the Agency's residual risk approach. We will address the comments that you provided from the consultation in a package of source category risk assessments that will be provided for formal SAB review next fiscal year.

Sincerely,

A handwritten signature in black ink, appearing to read "S. L. Johnson".

Stephen L. Johnson
