

THE ADMINISTRATOR OF THE ENVIRONMENTAL PROTECTION AGENCY

WASHINGTON, D.C. 20460

JAN - 3 2013

David T. Allen, Ph.D.  
Chairman  
Science Advisory Board  
U.S. Environmental Protection Agency  
1200 Pennsylvania Avenue, NW  
Washington, D.C. 20460

Dear Dr. Allen:

Please accept my appreciation for the September 28, 2012, letter that provided the Science Advisory Board's peer review advisory on the U.S. Environmental Protection Agency's draft *Accounting Framework for Biogenic CO<sub>2</sub> Emissions from Stationary Sources*. The SAB and its 18-member Biogenic Carbon Emissions Panel conducted a thorough review, and we are grateful for your hard work.

We are now reviewing the detailed recommendations provided in the advisory and will respond as appropriate. Any treatment of biogenic CO<sub>2</sub> emissions related to formal rulemaking would follow the EPA's standard notice-and-comment rulemaking procedures.

In the meantime, we look forward to working with you on this matter and other important environmental-science issues.

Sincerely,
