

Consistency and Effectiveness of Implementation

- Internal Consistency between MARSAME components
- Effectiveness of Roadmap as Overview of Process
- Consistency with MARSSIM and MARLAP
- Consistency with Agency Guidelines (responsibility of each individual agency, however, overview can illuminate implementation issues)
- Consistency with National and International Standards on Clearance (ANSI N13.12, ISO guidelines, etc.)
- Consistency with Dose Assessment Methods
- Need and use of Alternate Methods
- Consistency with ALARA principles
- Consistency with Cost, Scheduling, Safety, and Waste Reduction expectations
- Assess extent of Cumbersomeness and Burdensomeness in application
- Assess extent of Applicability, Flexibility, and Technical Accuracy in addressing wide-spectrum of cases
- Consistency with D&D activities (interface with planning, conducting and assessing, and decision-making)
- Consistency with other Integration and Optimization issues
- Ensure MARSAME is a Practical and Implementable Approach
