Dear Dr. Russell:

Thank you for providing me with the Clean Air Scientific Advisory Committee NOx & SOx Secondary Review Panel's comments on the U.S. Environmental Protection Agency's *Draft Plan for Review of the Secondary National Ambient Air Quality Standard (NAAQS) for Nitrogen Dioxide and Sulfur Dioxide*. The Panel's review and comments have been extremely helpful to me and my staff as we have revised and finalized the integrated review plan.

I thank the Panel again for its excellent work and will continue to consider its advice and recommendations carefully as we move forward on our review of the secondary NAAQS for these pollutants.

Sincerely,
