October 28, 1992

OFFICE OF
THE ADMINISTRATOR
SCIENCE ADVISORY BOARD

EPA-SAB-DWC-CON-93-001

Honorable William K. Reilly
Administrator
U.S. Environmental Protection Agency
401 M Street, SW
Washington, D.C. 20460

Subject: Notification of a Consultation on the Draft Drinking
Water Criteria Documents for Chlorine and for
Chloramines

Dear Mr. Reilly:

The Drinking Water Committee (DWC) of the Science Advisory Board (SAB) met on April 13-14, 1992 to discuss the Agency's March 1992 external review draft documents: 1) *Drinking Water Criteria Document for Chlorine, Hypochlorous Acid and Hypochlorite Ion*, and 2) *Drinking Water Criteria Document for Chloramines*. These documents were prepared to provide the health effects basis to be considered in establishing maximum contaminant level goals (MCLG's).

Although the discussion was originally planned to be a review of the two draft documents, the Agency Staff did not prepare a charge to the Committee nor did they ask the Committee to respond to any specific questions. As the discussion evolved, it became evident to the Committee that both draft documents were still very preliminary and that further effort would be required on the part of the Agency before the documents were ready for a full review. Consequently, we decided to consider the discussion at the public meeting to be a Consultation on the progress of the two documents. As you know, the SAB has developed the Consultation as a mechanism to advise the Agency on technical issues that should be considered in the development of regulations, guidelines, or technical guidance before the Agency has taken a position. A Consultation is conducted under the normal requirements of the Federal Advisory Committee Act, which include advance notice of the public meeting in the Federal Register.

We believe that the Consultation achieved its goal by discussing a number of important issues that EPA can consider in revising the two draft documents. As is our customary practice there will be no formal report from the SAB as result of this Consultation, nor do we expect any formal response from the Agency. We look forward to advising the Agency in the future by consultations as well as through more formal scientific reviews.

We appreciate the opportunity to interact with Agency Staff on these two draft documents and look forward to conducting a formal review in the future.

Sincerely,

Dr. Raymond C. Loehr, Chair
Science Advisory Board

Dr. Verne A. Ray, Chair
Drinking Water Committee

**ENVIRONMENTAL PROTECTION AGENCY
SCIENCE ADVISORY BOARD
DRINKING WATER COMMITTEE**

CHAIRMAN

Dr. Verne A. Ray, Medical Research Laboratory, Pfizer Inc., Groton, Connecticut

VICE CHAIRMAN

Dr. Vern L. Snoeyink, Department of Civil Engineering, University of Illinois, Urbana, Illinois

MEMBERS/CONSULTANTS

Dr. Richard J. Bull, College of Pharmacy, Washington State University, Pullman, Washington

Dr. Gary P. Carlson, Department of Pharmacology and Toxicology, School of Pharmacy, Purdue University, West Lafayette, Indiana

Dr. Keith E. Carns, East Bay Municipal Utility District, Oakland, California

Dr. Lenore S. Clesceri, Rensselaer Polytechnic Institute, Materials Research Center, Troy, New York

Dr. David G. Kaufman, Department of Pathology, University of North Carolina, Chapel Hill, North Carolina

Dr. Ramon G. Lee, American Water Works Service Company, Voorhees, New Jersey

Dr. Edo D. Pellizzari, Research Triangle Institute, Research Triangle Park, North Carolina

Dr. Mark D. Sobsey, Department of Environmental Sciences and Engineering, School of Public Health, University of North Carolina, Chapel Hill, North Carolina

Dr. James M. Symons, Department of Civil and Environmental Engineering, University of Houston, Houston, Texas

SCIENCE ADVISORY BOARD STAFF

Mr. A. Robert Flaak, Assistant Staff Director and Acting Designated Federal Official, Science Advisory Board (A-101F), U.S. EPA, 401 M Street, SW, Washington, DC 20460

Mrs. Frances Dolby, Staff Secretary, Drinking Water Committee, Science Advisory Board (A-101F), U.S. EPA, 401 M Street, SW, Washington, DC 20460

NOTICE

This report has been written as a part of the activities of the Science Advisory Board, a public advisory group providing extramural scientific information and advice to the Administrator and other officials of the Environmental Protection Agency. The Board is structured to provide balanced, expert assessment of scientific matters related to problems facing the Agency. This report has not been reviewed for approval by the Agency and, hence, the contents of this report do not necessarily represent the views and policies of the Environmental Protection Agency, nor of other agencies in the Executive Branch of the Federal government, nor does mention of trade names or commercial products constitute a recommendation for use.
