

Resource Crosswalk to new ORD Program/Project Structure

Former Program/Project (P/P) Structure	Goal	Objective	New P/P	
Global Change Research	Goal 1: Taking Action on Climate Change and Ensuring Air Quality	Objective 1.1: Address Climate Change	Air, Climate & Energy	Global Change Research
Clean Air Research				Clean Air Research
Sustainability Research		Objective 1.2: Improve Air Quality		Other Research
Human Health and Ecosystems Research				
Drinking Water Research	Goal 2: Protecting America's Waters	Objective 2.1: Protect Human Health	Safe and Sustainable Water Resources	Drinking Water Research
Water Quality Research		Objective 2.2: Protect and Restore Watersheds and Aquatic Ecosystems		Water Quality Research
Human Health and Ecosystems Research	Goal 3: Cleaning Up Our Communities	Objective 3.1: Promote Sustainable and Livable Communities	Sustainable and Healthy Communities	Human Health Research
Fellowships				Ecosystems Research
Pesticides & Toxics Research				Other Research
Sustainability Research				
Land Research (Excluding Nanotechnology)				
Homeland Security Research	Goal 4: Assuring the Safety of Chemicals	Objective 4.1: Assure Chemical Safety	Homeland Security	
Human Health Risk Assessment			Human Health Risk Assessment	
EDCs Research			Chemical Safety and Sustainability	EDCs Research
Computational Toxicology Research				Computational Toxicology Research
Human Health & Ecosystems Research				Other Research
Human Health Risk Assessment (NexGen)				
Pesticides & Toxics Research				
Land Research (Nanotechnology)				
Clean Air Research (Nanotechnology)				
Sustainability Research
