

Request for Clarifications

Overview for the
Ethylene Oxide Augmented Chemical Assessment Advisory
Committee of
the Science Advisory Board
20 February 2015

Jennifer Jinot, Ethylene Oxide Assessment Manager
National Center for Environmental Assessment
Office of Research and Development
U.S. Environmental Protection Agency

- EPA submitted a memo to the SAB on 19 Feb 2015 discussing specific clarifications.
- This presentation will provide an overview of the clarifications discussed in the memo.

1. “Reasonable models” considered for breast cancer incidence
2. Number of public comments received

Clarifications Requested of the SAB Regarding the Draft SAB Report

1. AIC discussion
2. Recommended tables
3. Investigation of stability of low-dose spline segment for lymphoid cancer risk
4. Medians versus means
5. Utility of alternative two-piece spline model of lymphoid cancer data using knot defined by a local maximum likelihood
6. MoA informing model selection

Thank You.

And we would be happy to answer any questions at any point in your discussions.
