

Sept 8, 1995

EPA-SAB-DWC-CON-95-005

Honorable Carol M. Browner  
Administrator  
U.S. Environmental Protection Agency  
401 M Street, SW  
Washington, DC 20460

Subject: Notification of a Consultation on EPA-ILSI Cooperative  
Projects in Risk Assessment

Dear Ms. Browner:

The Drinking Water Committee (DWC) of the Science Advisory Board (SAB) met on August 16-18, 1995, in part to conduct a consultation with staff from the Office of Water (OW) on various projects conducted under a cooperative agreement between OW and the International Life Sciences Institute (ILSI). The focus of these projects is to address scientific questions underlying risk assessment issues related to water quality. During the meeting, the Committee received presentations from both EPA staff and Staff from the ILSI Risk Science Insititute.

The SAB has developed the consultation as a mechanism to advise the Agency on technical issues that should be considered in the development of regulations, guidelines, or technical guidance before the Agency has taken a position. A consultation is conducted under the normal requirements of the Federal Advisory Committee Act, which include advance notice of the public meeting in the Federal Register.

As is our customary practice, there will be no formal report from the SAB as a result of this consultation, nor do we expect any formal response from the Agency. However, individual members of the panel may provide comments, or the Committee may provide more guidance at a later date in a Commentary or through a formal review. We look forward to further interactions on these issues in the future.

Sincerely,

*Genevieve M. Matanoski*  
Dr. Genevieve M. Matanoski, Chair  
Executive Committee

Dr. Verne Ray, Chair  
Drinking Water Committee
