

**EPA Science Advisory Board
Environmental Economics Advisory Committee
Public Teleconference
May 19, 2006
1:00 p.m. – 3:00 p. m. Eastern Time**

Purpose: The purpose of this teleconference is to discuss upcoming activities of the National Center for Environmental Economics (NCEE) that are related to NCEE's request for advice from the Environmental Economics Advisory Committee's (EEAC) on the valuation of mortality risk reduction. In addition, EEAC members will discuss the possibility of offering unsolicited advice to the EPA concerning recently proposed changes in reporting rules for the Toxics Release Inventory (TRI).
