

U.S. Environmental Protection Agency – Science Advisory Board

Trichloroethylene (TCE) Review Panel

Public Meeting, May 10 – 12, 2010

Request for Presentations

Dear Dr. Rigas:

This request includes speakers representing the Aerospace Industries Alliance (AIA), the Halogenated Solvents Industry Alliance, Inc. (HSIA) and GE. Multiple speakers are included in this submission in the interests of ease and efficiency for all concerned.

The speakers, their affiliation, the organization they are representing, topic, and whether they will attend in person or join by telephone are shown:

1. W. Caffey Norman III (Patton Boggs LLC representing HSIA) General and cancer classification. In person.
2. Michael Kelsh, PhD, MPH (Exponent Health Sciences., representing AIA) Epidemiology. By telephone.
3. Michael Dourson, PhD, DABT (Toxicology Excellence for Risk Assessment, representing AIA). Cancer classification. By telephone.
4. Wolfgang Dekant, PhD (Prof., University of Wurtzburg, representing HSIA). TCE metabolism and kidney toxicity. By telephone from Germany.
5. Lisa Sweeney, PhD, DABT (Toxicology Excellence for Risk Assessment, representing AIA) PBPK Modeling. By telephone.
6. John DeSesso, PhD (Exponent Inc., representing AIA) Developmental toxicity. In person.
7. Lorenz Rhomberg, PhD, FATS (Gradient Corp., representing HSIA). RfC and RfD. In person.
8. Paul Dugard, PhD, DipRCPath (HSIA). Risk assessment. In person.
9. Patricia Casano, (General Electric Company) Science policy. In person.

If necessary, I am able to supply contact details for all of the above speakers.

Thank you.

Paul H. Dugard

Halogenated Solvents Industry Alliance, Inc.
