The two ATSDR documents are official agency publications. The Public Health Statement on Radon is available at <http://www.atsdr.cdc.gov/PHS/PHS.asp?id=405&tid=71>

The radon draft toxicological profile is available at <http://www.atsdr.cdc.gov/ToxProfiles/TP.asp?id=407&tid=71>

Dr. Resnikoff's paper was submitted as comments to the New York State Department of Environmental Conservation on the draft supplemental generic environmental impact statement on unconventional shale gas development. What sort of permission do we need as NYSDEC has made his submission available with all the hundreds of thousands of other comments?

Have I provided what you need? Jeff
