Dear Dr. Russell:

Thank you for your leadership during the September 15, 2010, peer-review teleconference on the U.S. Environmental Protection Agency's *Approach for the Development of a New Federal Reference Method for Lead in Total Suspended Particulates*.

The thoughtful comments offered by the Clean Air Scientific Advisory Committee's Ambient Air Monitoring and Methods Subcommittee have been exceptionally helpful to me and my staff as we continue to review the monitoring options related to the 2008 revision of the National Ambient Air Quality Standard for lead.

Please know that I truly appreciate the subcommittee's efforts, and I look forward to continuing to work with all of you.

Sincerely,
