We insist on a full review of the EPA's actions to dismantle climate policy.

Laura Chinn-Smoot
Very Concerned US Citizen

I support a full review of the EPA's actions to dismantle climate policy.

Please - we need a
full review of the
EPA's actions to dismantle
our climate policy. The
need for a solid climate
policy is greater than ever.

SATURN'S B RING

Cassini captured this image shortly before Saturn's August 2009 equinox. Here, towering vertical structures peak from the planet's B ring, casting jagged shadows. The vertical structures rise as high as 1.6 miles (2.6 kilometers) above the rings while are about 30 feet (9 meters) thick.
