each dolphin, fish/whale that died from bp oil is worth \$1 million to me.
they feel pain. they want to live as much as people do. bp is a horror to
behold. we dont want these spills to happen. this agency is much much too
easy on big time oil rich corporations and lets them pollute like mad.
your regulations are not stringent enough. the oil co in alsaks didnt
maintain their pipeline for 17 years and thn it spilled. that is an
example, along with gulf of mexico, and yellowstone river of what we
simply cannot allow to happen anymore. we cannot allow it to
happenanymore. we need to take every cent from bp so that it has no
money
left and put it out of business. we cannot accept companies that pollute
earth like this. this is my statement for the meeting record. please send
me a paper copy of the minutes of this meeting. jeanpublic 2 glenway

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9437-3]

Science Advisory Board Staff Office; Notification of a Public
Teleconference of the Chartered Science Advisory Board

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA Science Advisory Board (SAB) Staff Office announces a public teleconference of the Chartered SAB on July 28, 2011 to conduct a quality review of a draft SAB report, Review of EPA's Draft Oil Spill Research Strategy.

DATES: The public teleconference will be held on July 28, 2011 from 12 p.m. to 3 p.m. (Eastern Daylight Time).

ADDRESSES: The public teleconference will be conducted by telephone only.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing to obtain general information concerning the public teleconference may contact Dr. Angela Nugent, Designated Federal Officer (DFO). Dr. Nugent may be contacted at the EPA Science Advisory Board (1400R), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; or by telephone/voice mail at (202) 564-2188; fax at (202) 565-2098; or e-mail at nugent.angela@epa.gov. General information concerning the EPA Science Advisory Board can be found on the EPA Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the EPA Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. Pursuant to FACA and EPA policy, notice is hereby given that the SAB will hold a public teleconference to conduct a quality review of an SAB draft report entitled Review of EPA's Draft Oil Spill Research Strategy. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Background: EPA's Office of Research and Development (ORD) has developed a draft Oil Spill Research Strategy in light of the 2010 Deepwater Horizon oil spill in the Gulf of Mexico. The

[[Page 41246]]

Deepwater Horizon oil spill in the Gulf of Mexico had fundamentally different characteristics than previous near-shore oil spills creating new research needs for oil spill treatment methods (e.g., in-situ burning, bioremediation, and the use of dispersants), and potential human health and ecological impacts. ORD requested SAB advice on its draft Oil Spill Research Strategy. The SAB Oil Spill Research Strategy Review Panel has considered ORD's strategy and prepared an advisory report that will undergo quality review by the chartered SAB.

Background information about the SAB advisory activity can be found

on the SAB Web site at
http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/Oil%20Spill%20Research%20Strategy?OpenDocument.

Availability of Meeting Materials: The agenda and other materials in support of the teleconference will be placed on the SAB Web site at <http://www.epa.gov/sab> in advance of the teleconference.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office.

Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments for a federal advisory committee to consider as it develops advice for EPA. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for SAB panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the Designated Federal Officer directly. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a teleconference will be limited to three minutes. Those interested in being placed on the public speakers list for the July 28, 2011 teleconference should contact Dr. Nugent at the contact information provided above no later than July 21, 2011. **Written Statements:** Written statements should be supplied to the DFO via email at the contact information noted above by July 21, 2011 for the teleconference so that the information may be made available to the Panel members for their consideration. Written statements should be supplied in one of the following electronic formats: Adobe Acrobat PDF, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format. It is the SAB Staff Office general policy to post written comments on the web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB Web site.

Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Nugent (202) 564-2188 or nugent.angela@epa.gov. To request accommodation of a disability, please contact Dr. Nugent preferably at least ten days prior to the teleconference to give EPA as much time as possible to process your request.

Dated: July 6, 2011.
Vanessa T. Vu,
Director, EPA Science Advisory Board Staff Office.
