Dear Dr. Russell:

Thank you for your letter and for providing me with the Clean Air Scientific Advisory Committee's comments and recommendations regarding the U.S. Environmental Protection Agency's second draft "Risk and Exposure Assessment to Support the Review of the Secondary National Ambient Air Quality Standards for Oxides of Nitrogen and Oxides of Sulfur."

The comments from the CASAC NO<sub>x</sub>/SO<sub>x</sub> secondary NAAQS review panel have been extremely helpful to me and my staff as we continue to refine our assessment of environmental exposures and risks associated with ambient oxides of nitrogen and sulfur. Our consideration of the panel's comments will be reflected in the final risk and exposure assessment document.

Again, I thank you and the panel members for your efforts, and I look forward to continuing to work with you in the future.

Sincerely,
